747 LOMASO EXPLORER TOUR

Design and cartography 2023 | max2.at

MTB Long and beautiful exploratory tour from Arco.

From Arco, pass the village of Padaro and take the winding, scenic road up to San Giovanni al Monte, the pass over into neighbouring Val Lomasona. After the long ascent, you will have earned a rest at the local mountain hut or at least some refreshment at the fountain, as well as a tremendous view. You then descend rapidly on forest tracks through shady woods down to Vigo Lomaso. Another short climb leads to the beautifully situated village of Comano and on to the cycle path, which leads through extraordinary scenery high above the Forra dei Limarò gorge towards Sarche. Once at the bottom of the valley, you stay on the western side of the valley, sometimes cycling right along the Sarca river, sometimes through the adjacent woods and olive groves out to the starting point in Arco.
