MTB

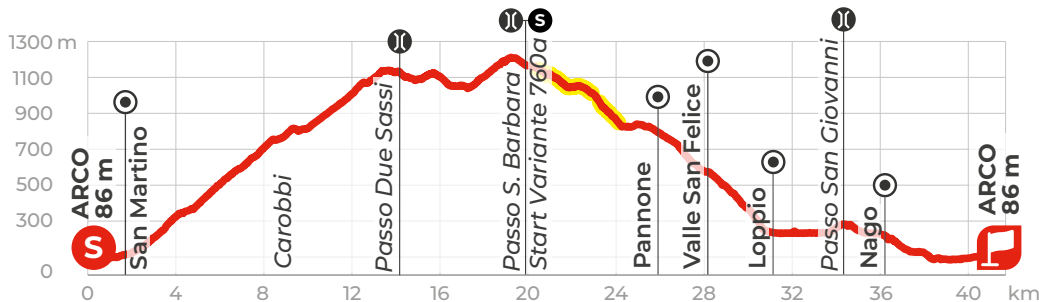

A circuit that has everything that goes to make up a great tour. Long climbs, entertaining descents, beautiful views and varying landscapes – and a great variant: all this awaits you on this circuit.

From Arco, begin as for tour 759 via San Martino and Carobbi to Passo Due Sassi, then continue via Malga Zanga to Santa Barbara. A variant via the Maso Naranch Trail starts here, but should only be tackled by experts. The tour skirts around the west of Monte Creino, taking a series of beautiful trails to the Maso Naranch farmstead, which is a great place to stop for refreshments. From there you don't ride straight down to Nago, you cross over instead into Val di Gresta, an agricultural valley famous for its organic farming. The varied descent to Loppio is on partly tarmacked, partly gravel cart tracks. You then take the cycle path to Nago and return easily to the starting point in Arco.
