

Design and cartography 2024 | max2.at

MTB Easy but interesting circuit, mostly on tarmac.

Start at the traffic-calmed centre of Tenno, ascending until you meet the main road at a bend. Cross it, then ride on gravel roads along the sunny slopes amid vineyards and olives. Just 2.5 km along the road is Canale di Tenno, which has one of the most original and charming medieval village centres and has rightly been named one of the most beautiful villages in Italy. Continue uphill towards Lago di Tenno. The route doesn't pass right by the lake, because the paths along it are reserved exclusively for walkers. We should definitely respect that, but don't let it stop you from visiting the idyllic turquoise water. Descend on the other side of the valley via the village of Pranzo, back to Tenno.
